

# Deployment

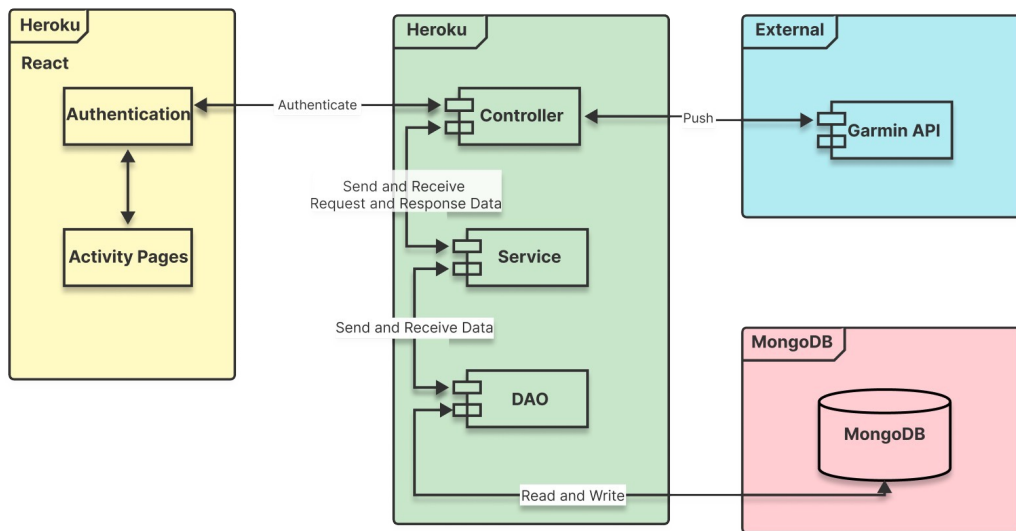

Figure.2 GA-BoxJelly Project Deployment

Deployment Address (for live demo)

## Front-end

<https://coaching-mate-frontend-react.herokuapp.com/>

## Back-end

<https://ga-boxjelly.herokuapp.com/>

## Execution Environments

### Heroku React

An instance of our react front-end.

### Heroku

Contains an instance of our Spring boot back-end, which is connected to the master branch of our GitHub repository. Development takes place on other branches, and stable versions are merged into master, automatically updating the production instances.

### MongoDB Cloud

Contains the MongoDB database.
