

# Deployment

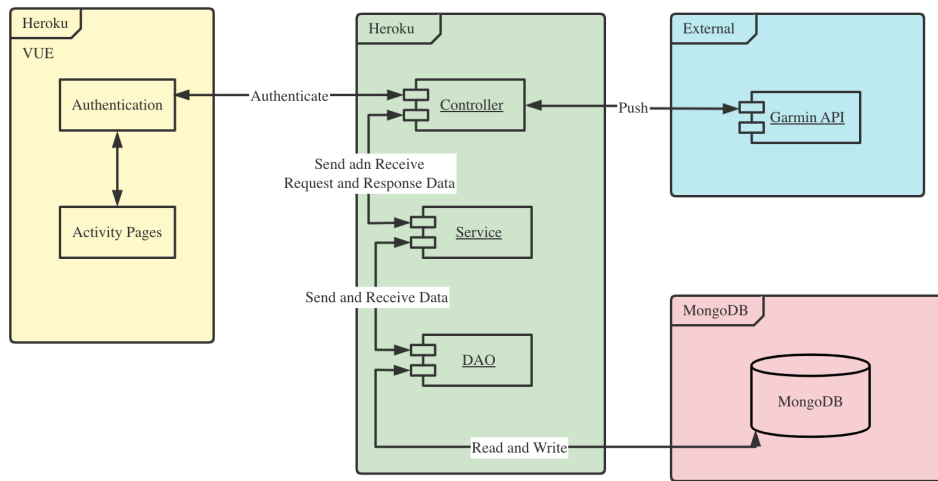

Figure.2 GA-BoxJelly Project Deployment

## Deployment Address (for live demo)

### Front-end

<https://ga-boxjelly-frontend.herokuapp.com/#/>

### Back-end

<https://ga-boxjelly.herokuapp.com/>

## Execution Environments

### Heroku Static Buildpack

An instance of our VUE front-end.

### Heroku

Contains an instance of our Spring boot back-end, which is connected to the master branch of our GitHub repository. Development takes place on other branches, and stable versions are merged into master, automatically updating the production instances.

### MongoDB Cloud

Contains the MongoDB database.
